***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 8-11, 13, 14 and 20-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Baker et al. (USPN 5,517,154).

Fig 1 shows a circuit for producing a stable output voltage (relative to the input 12) comprising an opamp 18, an LED 64 and first and second photovoltaic diodes 70 & 72 arranged and operating as recited in claims 1, 2, 9-11, 13, 14, 21 and 22 (see bottom of column 5 to top of column 6).

Further shown is a resistance 68 as recited in claims 8 and 20.

***Conclusion***

3. Claims 12 and 23 appear to be allowable over the Prior Art of record. Claims 3-7 and 15-19 objected to as being dependent upon a rejected base claim, but may be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
